Phone: (217) 722-4952 | **Email**: matt@mattzuckermann.dev

Software Engineer specializing in TypeScript, React, JamStack, and SQL/NoSQL databases. UC Berkeley Extension coding program grad. Experienced JAM / MERN / LAMP stack engineer, AV technical director, and audio engineering.

Technical Skills

TypeScript, React, Gatsby, Next.js, Sass, Serverless, Node, GraphQL, Apollo, REST, Express, MongoDB, MySQL, Git

Applications Built

useThis.js: usethis.dev | github.com/mattzuckermann/useThis | Lead Developer
- JAMstack app for mastering the use of the "this" keyword in JavaScript (under construction)
- *Tools Used* - Next.js, TypeScript, React, Apollo, GraphQL, Sass, MongoDB, Mongoose, Jest, Cypress, Travis

Music Artist Site: joshzuckermann.com | github.com/mattzuckermann/MusicArtistSite | Lead Developer
- JAMstack site with reverse-engineered Spotify audio player and webhook that compiles site on changes to CMS.
- *Tools Used* - Gatsby, GraphQL, Material-UI, Contentful, Cloudinary, React, Node

NYTsearcher: nytsearcher.com | github.com/mattzuckermann/NYTsearcher | Back-End Developer
- New York Times articles API parser with back-end allowing users to share their favorites.
- *Tools Used* - React, Node, Express, Passport, Bootstrap
- *Demo Login* - username: demo@demo.com | password: demo

Code Snippets: codesnippets.app | github.com/mattzuckermann/Snippets. | Front-End Developer
- Personalized user database to store code with UI displaying it neatly colored and formatted.
- *Tools Used* - MySQL, Sequelize, Node, JavaScript, Bootstrap, Handlebars, Express, Passport
- *Demo Login* - username: demo@demo.com | password: demo

Experience

Programmer / Web Developer | Hurricane Electric Internet Services   November 2019 - Present
- Pushed and upkeeped production code of dynamic, modular solutions and visualizations.
- Maintained client LAMP stack database and web hosting configurations.
- Installed and configured servers along with internal components (i.e. OS images, RAM, kernel, bash scripting).

Operations Dispatcher / Web Developer | Pacific Surfacing, Inc.   September 2018 - November 2019
- Headed design and development of the company website utilizing React, Gatsby, GraphQL, and Node.
- Designed all company phasing plans and notices in Adobe Photoshop for HOAs, shopping plazas, and complexes.
- Instructed and supervised two new employees in computer operations during dispatch department expansion.

Certifications

- CompTIA Linux+
- CompTIA Security+
- CompTIA Network+
- UCBE Coding Boot Camp

Education

Wheaton College | Wheaton, Illinois
- Bachelor of Arts, Communication
- Bachelor of Arts, Music
- *cum laude*
